

Share your **CATHOLIC VALUES**  
& Enjoy a great cultural **EXPERIENCE**

## Host a **FRENCH** catholic youth next Fall

From october 15 to november 12

**Inspired Gateways**®  
The French *Catholic* youth program to the USA

→ France and America have a strong and profound friendship through history, and **Inspired Gateways**® has as its mission contributing to the renewal of this beautiful values between our countries by sponsoring 3-4 week homestays and exchanges between Catholic teens in France and America.

→ **Inspired Gateways**® wants to give to our youth, the next generation of leaders, an opportunity to discover common values and history in a way that will deepen their Catholic faith.

→ **Inspired Gateways**® has had a powerful, life-changing impact on the youth and their generous host families participating in our program. For the French students who have participated in this program, it has been an incredible experience for them, often one that has changed their lives. Through families like yours, they have discovered your values of generosity and kindness, and, despite our different cultures, have experienced how powerful it is to belong to the same Catholic community throughout the world.

Often, the bonds of friendship that are created by these visits last a lifetime and inspire future visits and interaction between the families involved.

The Cramer family, from LCSS community in Paris last july 2022 with the 2 French boys hosted in 2018
